NOTE 1 - NATURE AND DESCRIPTION OF BUSINESS

Yerbaé Brands Corp. (“Yerbaé” and, together with its Subsidiaries, the “Company”. “we”, or “us”) is a corporation existing under the *Business Corporations Act* (British Columbia) (“BCBCA”). Yerbaé’s principal subsidiaries are Yerbaé Brands Co. (“Yerbaé USA”) and Yerbaé LLC of which Yerbaé owns 100% interests in. Yerbaé is a beverage manufacturer focusing on the development and distribution of plant-based energy drinks and seltzers.

On May 19, 2022, Yerbaé (formerly Kona Bay Technologies Inc. (“Kona Bay”)) entered into a definitive arrangement agreement and plan of merger, as amended on August 31, 2022 and February 8, 2023, with Yerbaé USA, Kona Bay Technologies (Delaware) Inc. (“Merger Sub”), a wholly-owned Delaware subsidiary of the Company, 1362283 B.C. Ltd. (“FinCo”), a wholly-owned British Columbia subsidiary of Kona Bay, Todd Gibson and Karrie Gibson, pursuant to which Kona Bay proposed to complete a business combination with Yerbaé USA via the acquisition of all of the issued and outstanding securities of Yerbaé USA from the securityholders (collectively, the “Original Yerbaé Securityholders”) of Yerbaé USA (the “Transaction”). The Transaction was subject to the approval of the TSX Venture Exchange (“TSXV”) and constituted a reverse takeover of Kona Bay by Yerbaé USA as defined in TSXV Policy 5.2 – *Change of Business and Reverse Takeovers*.

On February 8, 2023, Yerbaé completed the Transaction with Yerbaé USA by way of a reverse merger conducted pursuant to: (i) the provisions of the Delaware General Corporations Law (“DGCL”) in which Merger Sub merged with and into Yerbaé USA, and (ii) a plan of arrangement conducted pursuant to the provisions of the BCBCA, which resulted in the amalgamation of Kona Bay with FinCo. In connection with the closing of the Transaction, Yerbaé (formerly, Kona Bay Technologies Inc.) consolidated its issued and outstanding common shares (each, a “Common Share”) on the basis of 5.8 pre-consolidation Common Shares for every one post-consolidation Common Share and changed its name from “Kona Bay Technologies Inc.” to “Yerbaé Brands Corp.”

On August 2, 2024 Yerbaé’s Form 10, which was initially filed with the Securities and Exchange Commission (the “SEC”) on April 23, 2024, was declared effective. As a result, the Company, as a voluntary filer, was required to commence making filings under the Securities and Exchange Act of 1934 beginning with the current form 10-Q for the period ended June 30, 2024.

Basis of Presentation and Principles of Consolidation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“U.S. GAAP”) and include Yerbaé and its subsidiaries and include the accounts of all majority owned subsidiaries over which the Company exercises control and, when applicable, entities in which the Company has a controlling financial interest. All intercompany balances and transactions have been eliminated in consolidation. The Company had the following wholly-owned consolidated subsidiaries as of June 30, 2024:

Subsidiary	Date of Incorporation	Jurisdiction of Incorporation	Ownership Percentage	Direct or Indirect Ownership
Yerbaé Brands Co.	August 21, 2020	Delaware	100%	Direct
Yerbaé LLC ⁽¹⁾	May 18, 2016	Delaware	100%	Indirect

⁽¹⁾ Yerbaé LLC is a wholly-owned subsidiary of Yerbaé Brands Co.

These unaudited condensed consolidated financial statements should be read in conjunction with the Company’s latest consolidated annual financial statements for the period ended December 31, 2023 that was included in our Form 10 filed with the SEC on July 19, 2024. In general, disclosure provided in these unaudited condensed consolidated financial statements do not repeat the disclosure provided in the company’s most recent audited consolidated annual financial statements. However, these unaudited condensed consolidated financial statements reflect all adjustments which are, in the opinion of management, necessary to a fair statement of the results for the interim period presented.

Going Concern

Yerbaé's evaluation of its ability to continue as a going concern requires it to evaluate its future sources and uses of cash sufficient to fund its currently expected operations in conducting business activities one year from the date the financial statements are issued. Yerbaé evaluates the probability associated with each source and use of cash resources in making its going concern determination.

Due to our recurring losses, the ongoing challenging market conditions for beverage companies and our limited cash balance as of June 30, 2024, management believes that it is probable that the Company will be unable to meet its obligations as they come due within one year after the date that the unaudited condensed consolidated financial statements are issued. While the Company is attempting to plan additional financings, which are intended to mitigate the conditions or events that raise substantial doubt about our ability to continue as a going concern, those financings may not occur. If the financings do not occur, management will try and implement alternative arrangements, and such arrangements could have a potentially significant negative impact on the current net asset value of the Company. These alternatives include: (1) raising additional capital by means other than those planned through equity and/or debt financing; and/or (2) entering into new commercial relationships to help fund future expenses.

As a result of the Company's recurring losses from operations, and the need for additional financing to fund its operating and capital requirements within one year after the date that the financial statements are issued, there is uncertainty regarding the Company's ability to maintain liquidity sufficient to operate its business effectively, which raises substantial doubt as to the Company's ability to continue as a going concern.

Management Estimates

The preparation of the unaudited condensed consolidated financial statements in accordance with U.S. GAAP requires the use of estimates and assumptions that affect the amounts reported in the unaudited condensed consolidated financial statements and accompanying notes. These estimates are based on historical experience and various other assumptions that management believes to be reasonable under the circumstances, including the potential future effects of macroeconomic trends and events, such as inflation and interest rate levels; supply chain disruptions; uncertainty from potential recessionary effects; climate-related matters; market, industry and regulatory factors, including permitting issues; global events, such as the ongoing military conflicts in Ukraine and the middle east; and public health matters. These estimates form the basis for making judgments about the Company's operating results and the carrying values of assets and liabilities that are not readily apparent from other sources. While management believes that such estimates are reasonable when considered in conjunction with the Company's unaudited condensed consolidated financial position and results of operations taken as a whole, actual results could differ from these estimates.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Please refer to Note 3 of our audited financial statements included in the Form 10 (filed with the SEC on July 19, 2024) for information regarding our summary of significant accounting policies. In addition, pursuant to the requirements of Rule 10-01(a)(5) of Regulation S-X, the Company has added the following new policies based on material transactions that have occurred subsequent to the filing of the Form 10:

Related Party Transactions

The Company identifies related party transactions in accordance with ASC 850-Related Party Disclosures. Further, all required information regarding material related party transactions is disclosed in accordance with ASC 850-10-50 and Rule 4-08(k) of Regulation S-X. Refer to Note 12-Related Parties as well as Note 8-Notes Payable for additional information regarding our related party transactions.

Debt

The Company accounts for issued debt in accordance with the guidance in ASC 470-Debt. Further, all debt is analyzed to determine whether it contains any embedded options. If the debt contains embedded options, such as a conversion option, the options are analyzed in accordance with ASC 815-15 and ASC 470-20 to determine whether it should be bi-furcated from the debt host and accounted for separately. Finally, as the Company presents a classified balance sheet, all issued debt is assessed at the end of each reporting period to determine whether it should be classified as a short-term or long-term liability. In accordance with ASC 210-10, the Company classifies all debt payments due within one-year from the balance sheet date as the current portion of debt. All debt payments due beyond one year from the balance sheet date are classified as non-current debt.

Recent Accounting Pronouncements

Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures-In November 2023, the Financial Accounting Standards Board (“FASB”) issued Accounting Standard Update (“ASU”) No. 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures, which requires a public entity to disclose significant segment expenses and other segment items on an annual and interim basis and provide in interim periods all disclosures about a reportable segment’s profit or loss and assets that are currently required annually. Additionally, it requires a public entity to disclose the title and position of the Chief Operating Decision Maker (“CODM”). The ASU does not change how a public entity identifies its operating segments, aggregates them, or applies the quantitative thresholds to determine its reportable segments. The new standard is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, with early adoption permitted. A public entity should apply the amendments in this ASU retrospectively to all prior periods presented in the financial statements. Yerbaé expects this ASU to only impact its disclosures with no impacts to the Company’s results of operations, cash flows and financial condition.

Income Taxes (Topic 740): Improvements to Income Tax Disclosures-In December 2023, the FASB issued ASU No. 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures, which focuses on the rate reconciliation and income taxes paid. ASU No. 2023-09 requires a public business entity (“PBE”) to disclose, on an annual basis, a tabular rate reconciliation using both percentages and currency amounts, broken out into specified categories with certain reconciling items further broken out by nature and jurisdiction to the extent those items exceed a specified threshold. In addition, all entities are required to disclose income taxes paid, net of refunds received disaggregated by federal, state/local, and foreign and by jurisdiction if the amount is at least 5% of total income tax payments, net of refunds received. For PBEs, the new standard is effective for annual periods beginning after December 15, 2024, with early adoption permitted. An entity may apply the amendments in this ASU prospectively by providing the revised disclosures for the period ending December 31, 2025 and continuing to provide the pre-ASU disclosures for the prior periods, or may apply the amendments retrospectively by providing the revised disclosures for all period presented. Yerbaé expects this ASU to only impact its disclosures with no impacts to the Company’s results of operations, cash flows, and financial condition.

NOTE 3 - REVERSE RECAPITALIZATION

On February 8, 2023, Yerbaé completed the Transaction with Yerbaé USA by way of a reverse merger conducted pursuant to: (i) the provisions of the DGCL in which Merger Sub merged with and into Yerbaé USA, and (ii) a plan of arrangement conducted pursuant to the provisions of the BCBCA, which resulted in the amalgamation of Kona Bay with FinCo. In connection with the Closing, Yerbaé (formerly, Kona Bay Technologies Inc.) consolidated its issued and outstanding Common Shares on the basis of 5.8 pre-consolidation Common Shares for every one post-consolidation Common Share and changed its name from “Kona Bay Technologies Inc.” to “Yerbaé Brands Corp.”. In accounting for the Transaction, the Company determined that Kona Bay was a shell company (as that term has been defined in Rule 405 of the United States Securities Act of 1933) as prior to the merger they had no operations and assets consisting solely of cash and cash equivalents. Thus, pursuant to section 12100 of the United States Securities and Exchange Commission’s (“SEC”) financial reporting manual, the Company concluded that: (1) the Transaction

should be accounted for as “a reverse takeover equivalent to the issuance of Common Shares by the Company for the net monetary assets of Kona Bay”; and (2) the Company should be considered the accounting acquirer/legal acquiree in the Transaction. As the Company concluded that Yerbaé USA was the accounting acquirer/legal acquiree in the transaction, the historical results of the combined company (prior the merger) represent the historical results of Yerbaé USA.

The recognition and measurement for the acquisition of Kona Bay, was analogized to the guidance in ASC 805-40 Reverse Acquisitions which requires that the accounting acquirer measure the fair value of the consideration transferred based on the number of common shares the legal target would have had to issue in order to retain a specified ownership in the combined Company (the “deemed issuance”). Yerbaé intended to retain and 85% ownership interest in the combined company, and therefore, based on 30.2 million shares outstanding immediately prior to the merger, would have had to issue approximately 5.3 million shares to the owners of the legal parent (to retain an 85% ownership). In addition, based on an equity financing by the Company which occurred immediately before the transaction, the Company determined that the common shares had a fair value of \$1.23 per share. This resulted in the determination of the fair value of the consideration transferred in the transaction was approximately \$6.5 million (5.2 million shares x \$1.23 per Common Share) and that of the \$6.5 million transferred approximately \$0.6 million should be allocated to the cash acquired from Kona Bay (i.e., the “net assets” acquired) and the remaining \$5.9 million should be recognized as a charge to equity as follows:

	Allocation Table (\$ in millions)	
Fair value of consideration paid	\$	6.5
Net assets acquired (cash)		(0.6)
Charge to additional paid in capital	\$	<u>5.9</u>

In addition, the Company presented the acquisition of Kona Bay as a “recapitalization” line item in our statement of changes in shareholders equity reflecting: (1) the number of Kona Bay’s outstanding common shares immediately prior to the transaction; and (2) the approximately \$6.5 million in fair value of consideration transferred (calculated pursuant to the paragraph above). Further, while the guidance in ASC 805-40 also requires a revision to historical equity (of the combined company) to reflect the legal capital of the legal acquirer, the Company concluded that this was not required in our scenario as the conversion ratio, which reflects the number of common shares issued by the legal acquirer to effectuate the transaction compared to the number of common shares in the capital of Yerbaé outstanding immediately prior to the transaction, was 1:1.

2023 Convertible Notes

On April 13, 2023, Yerbaé closed the first tranche (the “First Tranche”) of its brokered debenture unit (each, a “Debenture Unit”) offering which consisted of 1,650 Debenture Units for gross proceeds of \$1,650,000. On May 5, 2023, Yerbaé closed the second tranche (the “Second Tranche”) pursuant to which it issued an additional 2,152 Debenture Units for gross proceeds of \$2,152,000, and for aggregate gross proceeds, together with the closing of the First Tranche, of \$3,802,000.

Each Debenture Unit consisted of: (i) one (1) convertible debenture (each, a “Debenture”) in the principal amount of \$1,000; and (ii) 714 share purchase warrants. The Debentures mature on April 30, 2025 (the “Maturity Date”), and bear interest at a rate of 6.0% per annum, payable on the earlier of the Maturity Date or the date of conversion of the Debentures. The interest will be payable in Common Shares to be determined at the Market Price (as that term is defined in the Policies of the TSXV). The principal amount of the Debentures will be convertible at the holder’s option into Common Shares at any time prior to the close of business on the earlier of: (i) the last business day immediately preceding the Maturity Date, and (ii) the date fixed for redemption in the case of a change of control, at a conversion price of \$1.40 per Common Share, subject to adjustment in certain customary events. Each warrant entitles the holder thereof to acquire one Common Share at a price per Common Share of \$1.70 at any time prior to the Maturity Date, subject to an acceleration right whereby, if, in the event the Common Shares have a daily volume weighted average trading price on the TSXV (or such other recognized North American securities exchange) of \$3.00 or greater per Common Share for any ten (10) consecutive trading day period at any time after the date that is four (4) months following the issuance of the warrants, Yerbaé may accelerate the expiry of the warrants by giving notice to the holders by disseminating a news release advising of the acceleration) and, in such case, the warrants will be deemed to have expired on the day which is thirty (30) days after the date of such notice.

In accounting for the Debentures, the Company concluded the conversion option should not be bi-furcated from the debt host as it was considered indexed to the company’s stock in accordance with ASC 815-40. Further, the Company also concluded that the detachable warrants should be classified in equity as they: (1) were not within the scope of ASC 480-10; and (2) should be considered indexed to the Company’s Common Shares. In accordance with ASC 470-20, the Company recognized both the Debentures and detachable warrants at their relative fair values. This resulted in the recognition of a debt discount that is being amortized to interest expense over the life of the Debenture Units. During the three and six months ended June 30, 2024, the Company recorded accretion expense of \$168,602 and \$347,915, respectively. The remaining unamortized debt discount balance as of June 30, 2024 was \$732,783.

Related Party Note

The Company entered into a loan agreement with an officer of the Company for which proceeds were received during June of 2024. An aggregate of \$300,000 was advanced by the related party pursuant to the loan agreement. The related party note carries a borrowing fee of 10% with a maximum borrowing charge of \$30,000.

In accordance with the guidance in ASC 815-40-35, the Company determined that the exchange was related to an equity financing (i.e the inducement of the existing warrants) and

Overview

Yerbaé was founded by Todd Gibson and Karrie Gibson in 2016 to create plant-based energy drinks containing yerba mate, a South American herb and a natural source of caffeine. Yerbaé’s first beverage was launched in the first quarter of 2017.

Yerbaé is engaged in the development, marketing, sale, and distribution of plant-based energy beverages that do not contain calories, carbohydrates, or sugar. Yerbaé’s line of beverages are blended with non-GMO plant-based ingredients and offer the benefits of yerba mate and white tea; sustainably sourced from Brazil and other growing regions in South America.

Yerbaé beverages are created to provide products targeted at consumers focused on health, wellness, and fitness and seeking healthier beverages as an alternative to existing energy drinks. The products are formulated to provide a more refreshing taste than coffee, with additional benefits to existing sodas and sparkling waters, along with healthier ingredients than traditional energy drinks. Yerbaé’s products complement a variety of healthy lifestyles, such as non-GMO, Keto, Vegan, Kosher, Paleo and gluten-free diets.

The accompanying condensed consolidated financial statements have been prepared on a basis that assumes that the Company will continue as a going concern and that contemplates the realization of assets and satisfaction of liabilities and commitments in the normal course of business. The Company had an accumulated deficit of \$39.9 million and

\$34.5 million as of June 30, 2024, and December 31, 2023, respectively. Further, the Company had cash and cash equivalents of approximately \$0.1 million and \$1.0 million as of June 30, 2024, and December 31, 2023, respectively. The Company's primary focus in recent months has been and will continue to be supporting and the manufacturing of its products which requires capital and resources. The Company expects that its operating losses and negative cash flows will continue for the foreseeable future. Based on the Company's currently available cash resources, current and forecasted level of operations, and forecasted cash flows for the 12-month period subsequent to the date of issuance of these condensed consolidated financial statements, the Company will require additional funding to continue to progress its operational obligations as they come due. These factors raise substantial doubt about the Company's ability to continue as a going concern.

The Company's ability to continue as a going concern is dependent upon its ability to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due, and to generate profitable operations in the future. Management plans to provide for the Company's capital requirements through financing, operations, or other transactions, including drawing from the line of credit.

Management's discussion and analysis of financial condition and results of operations

Liquidity and Capital Resources

As of June 30, 2024, and December 31, 2023, the Company had a working capital deficit of \$3,814,557 and surplus of \$843,478, respectively. The Company has incurred losses since inception and as of June 30, 2024, and December 31, 2023, had an accumulated deficit of approximately \$40.0 million and \$34.5 million, respectively. The Company's objective in managing its capital is to ensure that there is sufficient liquidity to finance and grow its operations, maximize the preservation of capital, provide adequate capital to fund its business objectives, and deliver competitive returns on invested capital. To fund its activities, the Company has primarily relied on private placement financings, lines of credit, and other forms of debt. The material debt financing transactions were as follows:

Notes Payable

During 2023, convertible notes were issued in the amount of \$3,802,000 with a stated interest rate of 6.00%. The convertible notes were unsecured and are due on April 30, 2025. The balance, net of debt discount, of the convertible notes as of June 30, 2024, and December 31, 2023, was \$2,544,217 and \$2,196,302, respectively.

During 2023, the Company entered into a short-term note payable with Amazon lending in the amount of \$0.3 million. The note payable matures on December 26, 2024, has an interest rate of 14.49% and is secured by the Company's inventories. The balance of the note payable was \$145,124 as of June 30, 2024 (December 31, 2023 - \$317,000).

Related Party Financing

The Company entered into a short-term note payable with an officer of the Company for which proceeds were received during June of 2024. An aggregate of \$300,000 was advanced by the related party pursuant to the loan agreement. The note payable matures during June 2025 and carries a borrowing fee of 10%, with a maximum fee of \$30,000. The balance of the note payable was \$0.3 million as of June 30, 2024.

Line of Credit

On May 16, 2023, Yerbaé's Delaware subsidiary, Yerbaé LLC, replaced its line of credit provider Ampla LLC ("Ampla") and secured a new accounts receivable and inventory revolving line of credit of \$2,500,000 (the "Debt Facility") from Oxford Commercial Finance, a Michigan banking corporation. The Company can draw down funds as needed, and only pay interest on the amount borrowed. The Debt Facility is secured by a security interest in all assets of Yerbaé, including a first security interest in Yerbaé's accounts receivable and inventory. The outstanding balance on the line of credit as of June 30, 2024, and December 31, 2023, was \$694,238 and \$0, respectively. The line

of credit with Oxford was paid off subsequent to reporting period end utilizing the proceeds from a new line of credit that was entered into with Maximcash solutions.

Warrant Exercise

On January 16, 2024, the Company issued, in connection with the exercise by one eligible warrant holder who participated in the Company's warrant exercise incentive program an aggregate of 835,000 Warrants for gross proceeds to the Company of \$1,002,000, and an aggregate of 835,000 warrants to the Eligible Holder. The Incentive Warrants are exercisable into the same number of Common Shares of the Company at an exercise price of \$1.50 per Common Share until December 14, 2025, subject to an acceleration provision whereby, if for any thirty (30) consecutive trading days (the "Premium Trading Days") following the repricing the closing price of the Common Shares exceeds \$2.50 per Common Share, the Incentive Warrants' expiry date will be accelerated such that holders will have thirty (30) calendar days to exercise the Incentive Warrants (if they have not first expired in the normal course) (the "Acceleration Clause").

On January 22, 2024, the Company issued 263,157 Common Shares upon the exercise of 263,157 share purchase warrants at an exercise price of \$0.95 per Common Share for gross aggregate proceeds of \$250,000.

On January 30, 2024, the Company issued 352,941 Common Shares upon the exercise of 352,941 share purchase warrants at an exercise price of \$0.85 per Common Share for gross aggregate proceeds of \$300,000.

Commitments

As discussed in our consolidated financial statements for the annual period ended December 31, 2023, the Company entered into an office lease agreement during December of 2022. The ongoing monthly payments are not expected to have a material impact on the Company's financial condition.

In addition to the lease agreement, the Company also enters into unconditional purchase obligations for inventory items such as cans and product ingredients. However, these obligations are not entered into for a period greater than one year. The Company has not entered into any off-balance sheet arrangements.

Going Concern

Yerbaé's evaluation of its ability to continue as a going concern requires it to evaluate its future sources and uses of cash sufficient to fund its currently expected operations in conducting business activities one year from the date the financial statements are issued. Yerbaé evaluates the probability associated with each source and use of cash resources in making its going concern determination.

Due to our recurring losses, the ongoing challenging market conditions for beverage companies and our limited cash balance as of June 30, 2024, management believes that it is probable that the Company will be unable to meet its obligations as they come due within one year after the date that the unaudited condensed consolidated financial statements are issued. While the Company is attempting to plan additional financings, which are intended to mitigate the conditions or events that raise substantial doubt about our ability to continue as a going concern, those financings may not occur. If the financings do not occur, management will try and implement alternative arrangements, and such arrangements could have a potentially significant negative impact on the current net asset value of the Company. These alternatives include: (1) raising additional capital by means other than those planned through equity and/or debt financing; and/or (2) entering into new commercial relationships to help fund future expenses.

As a result of the Company's recurring losses from operations, and the need for additional financing to fund its operating and capital requirements within one year after the date that the financial statements are issued, there is uncertainty regarding the Company's ability to maintain liquidity sufficient to operate its business effectively, which raises substantial doubt as to the Company's ability to continue as a going concern.

	2024	2023		
Revenues	\$ 1,562,244	\$ 3,618,117	\$ (2,055,873)	-57%

Yerbaé's revenue for the three months ended June 30, 2024, decreased by \$2.1 million, or 57%, compared to the same period in the prior year. This decline was primarily attributed to the non-renewal of its agreement with Sam's Club, the nation's second-largest club retailer, as well as the challenging consumer packaged goods (CPG) U.S. market today, which has been impacted by inflation and may be contributing to a reduction in consumer basket size. Despite these challenges, the Company achieved a 48% growth in its eCommerce channel compared to the same period in 2023 and Yerbaé has successfully secured new partnerships with major retailers, including Kroger and Target during the second quarter of 2024. While Yerbaé continues to expand and strengthen its presence in its existing and new retail locations, the company is well-positioned for growth, but is cautiously optimistic with the current consumer packaged goods (CPG) challenges present in the U.S. market today. Additionally, the transition from the 16oz can line in mainstream grocery to the new 12oz sweetened can line, which began in March 2024, was successfully completed during the second quarter. This innovative 12oz package has been adopted as the primary offering by key retailers, including Target, Kroger, and other mainstream grocers.

Sales, advertising and marketing decreased to \$0.4 million for the three months ended June 30, 2024, compared to \$1.7 million for the prior year period. Throughout 2024, the company has prioritized delivering efficiencies across its sales, advertising, and marketing platforms. This effort included a strategic focus on optimizing product availability in both retail and eCommerce channels. This optimization involved streamlining fewer less-effective programs and leveraging insights gained about our customers' evolving needs in a dynamic consumer landscape. The Company's efforts included refining consumer messaging and enhancing in-market activities with higher quality visuals and retailer-specific programs. These initiatives have contributed to the continuous improvement of the brand's positioning and increased consumer engagement.

	2024	2023		
Revenues	\$ 2,997,215	\$ 7,005,024	\$ (4,007,809)	-57%

Yerbaé's revenues decreased by \$4.0 million, or 57%, for the six months ended June 30, 2024, as compared to the same period in the prior year. Over the last six months, the company has focused on optimizing its customer base by eliminating less profitable accounts, such as Sam's Club and other high-slotting, low-volume retailers. Instead, the company concentrated on growth-oriented retailers that contribute positively to gross margins and enhance shareholder value. As previously announced, the Company decided not to renew its partnership with Sam's Club, the second-largest club retailer in the U.S. in 2024, as the company incurred significant losses in 2023 due to the cost that are affiliated with doing business with Sam's Club. The non-renewal of our partnership with Sam's Club was the primary driver in our decreased period-over-period revenues. In addition, in Q1 2024, the Company transitioned from 16oz to 12oz packaging, aligning with consumer demand for a more efficient product size, however this also resulted in decreased sales as the Company transitioned to the new can format.

General and administrative expenses decreased to \$5.7 million for the six months ended June 30, 2024, compared to \$12.1 million for the six months ended June 30, 2023. Sales, advertising and marketing decreased to \$0.8 million for the six months ended June 30, 2024, compared to \$3.7 million for the prior year period. Over the past six months, the company has focused on evaluating and optimizing retailer performance, promotions, and growth levels. By concentrating on select channels, the company has demonstrated its ability to operate more efficiently. This has involved reducing the number of promotions during the quarter and eliminating programs that did not meet expectations, such as paid pallet positions, slotting fees, and other sales initiatives. Additionally, the company has prioritized more efficient and effective digital targeting in its eCommerce channels, which continues to deliver positive results.
